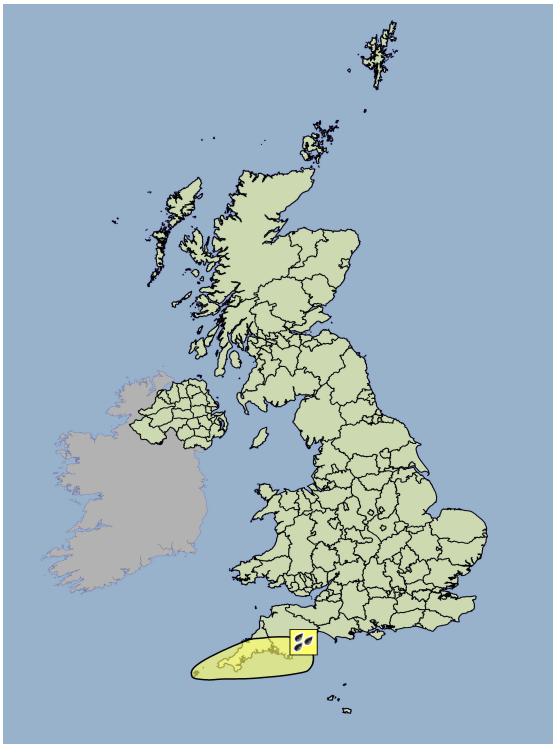
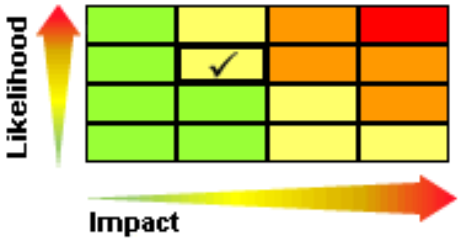
National Severe Weather Warning Service





Chief Forecasters Assessment
Despite minimal impact from the bands of heavy rain and thunderstorms which affected South Devon earlier today, the occurrence of further downpours during the evening and overnight into Sunday increases the risk of surface water runoff particularly in South Devon, including Plymouth and Torbay.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **21:00 on Sat, 28th Sep 2013** until **06:00 on Sun, 29th Sep 2013**

Further thundery downpours will occur during Saturday evening and overnight into Sunday, with the potential for 20-30 mm of rain to fall within a short period.

The public should be aware of the risk of localised surface water flooding, particularly where heavy rain occurred earlier today.
